# Memorandum

TO : Director of Training  
THRU : Chief, Operations School, OTR

DATE: 1 November 1965

FROM : Chief, Training Assistance Staff, Operations School

SUBJECT: Weekly Activity Report #34  
26 October - 1 November 1965

## A. SIGNIFICANT ITEMS:

None to report.

## B. OTHER ITEMS:

### 1. TRAINING FILMS:

[redacted] forwarded to Headquarters, without recommendation, a request from [redacted] for OTR's [redacted] film series for retention. Before making a decision, I talked with [redacted] CI Staff, who agreed that giving or lending the films to [redacted] would open the door to world-wide demands from other U.S. [redacted] groups, no matter how small. [redacted] FE/[redacted], also agreed that the request should be refused.

### 2. FI STUDIES SERIES:

I talked with [redacted] again last week about [redacted] s comment that FI Staff was preparing new materials that would "revolutionize" methods of operation and training in the tradecraft field. Jerry tells me that the FI study on the [redacted] will be published soon. The seventh study in the series, [redacted] is also due for early publication, although Jerry felt that it needed more work. Jerry said he was not familiar with any other FI studies now being prepared.

### 3. DIA MANUAL (DIAM 58-11):

FE [redacted] forwarded to TAS its copy of subject manual on Collection Operations. [redacted], OCR, who is distributing the manuals within CIA, said a copy was sent to OTR, but TAS has not received it. I am submitting a request for a sufficient number of copies for distribution to all interested OTR components.

25 YEAR RE-REVIEW

SECRET

A quick review of the manual indicates that it is well written and comprehensive.

4. DECEPTION TECHNIQUES:

By memorandum of 25 October [redacted] Chief, [redacted] CA, has drawn our attention to a book in German on unconventional warfare--Die Trojanische List (The Trojan Deception), by Eugen Weyde (Marcus Publishers, Cologne). As the title indicates, it emphasizes deception techniques in the political, military, and diplomatic field, with historical examples, and describes the use of popular fronts by the Communists since 1945. The memo states that the book will be made available on loan to anyone interested in the subject.

5. [redacted]

According to the Washington Post, [redacted] will be published by Doubleday on 19 November 1965. At C/OS' request TAS will order copies for CH/OS (1), CC/OS (2) and TAS (1). [redacted] will probably prefer to order through its own library. If CH/OS or CC/OS desire more than the copies noted, it is requested that they advise TAS promptly.
